Re: Acknowledgment of Appeal of Facility Permit EPA ID NO.: CAD008488025 / DTSC  
Case NO.: 2024/25-HWM-05

Dear Neighbors Against Phibro Tech:

On March 26, 2025, the Board of Environmental Safety (Board) of the Department of Toxic Substances Control (DTSC) received your completed Standard Appeal Form BES 2301 you submitted concerning the appeal of the Facility Permit issued by DTSC's Permitting Division on February 28, 2025, for the Phibro-Tech, Inc., hazardous waste facility located in Santa Fe Springs, California.

This letter confirms that the appeal has been filed in accordance with the Board's appeal procedures, at California Code of Regulations (CCR), Title 22, Section 66271.72. This confirms that the stay of the permit decision is extended until the appeal is resolved, pursuant to 22 CCR Section 66271.71.

On or before April 29, 2025, i.e. 60 days after notice of the final hazardous waste facility permit decision, you are required to file a petition with the Board in accordance with 22 CCR 66271.72. The petition must contain a statement of reasons raising one or more issues with the decision to grant the permit, or with the inclusion or omission of any condition(s) in the permit.

Additional information about the permit appeals process is available on the Board's website at the following address: <https://bes.dtsc.ca.gov/facility-permit-appeals/>.

Sincerely,

Evelyn Nuno  
Board Clerk  
Board of Environmental Safety
