#	Agenda Item	Name	Public Comment	Affiliation
1.	#3 – Executive Officer Report and Board Member Reports	Angela Johnson Meszaros	Expressed concern that the Board's current activities appear as an ongoing to-do list without a clear connection to reducing toxic exposures or protecting public health, making it difficult to provide meaningful input. They also question what "meaningful public engagement" looks like, how success will be measured, and how continuity will be maintained amid Board member changes.	Earthjustice
2.	#4 – Safer Consumer Products (SCP) Program Overview	Ivana Castellanos	[written comment read aloud] Would like clarification on the Board's authority to mandate engineered safety measures or administrative controls to limit exposures.	Physicians for Social Responsibility Los Angeles
